PRIMARY EXAMINER

DETAILED ACTION

1. Claims 1-42 are present for examination.

Response to Amendment

2. The declaration and affidavits filed on 11/29/04 under 37 CFR 1.131 is sufficient to overcome the Wood et al., U.S. Pat. No. 6,691,232 reference.
3. The declaration and affidavits filed on 11/29/04 under 37 CFR 1.131 has been considered but is ineffective to overcome the Wood et al., U.S. Pat. No. 6,691,232 reference.
4. The evidence submitted is insufficient to establish a reduction to practice of the invention in this country or a NAFTA or WTO member country prior to the effective date of the 8/5/1999 reference. The affidavits filed fails to show a reduction to practice of the claims features as a whole (exemplary clm. 1), of particular note is the lacking of any teaching regarding the claimed features of obtaining circumstantial data associated with the authentication attempt, and determining a level of trust associated with the authentication attempt. The affidavit does however show that the biometric data may be obtained for a user during an authentication attempt. Therefore, the evidence is not sufficient to overcome the Wood '232 reference.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

6. Claims 12-42 are rejected under 35 U.S.C. 102(e) as being anticipated by Wood et al., U.S. Pat. No. 6,691,232, hereinafter '232.
7. The rejection is being maintained, for the specifics of the rejection see the previous office action, mailed date 6/28/04.

Claim Rejections - 35 USC § 103

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wood '232 in view of Khan et al., U.S. Pat. No. 6,401,206, hereinafter '206.
10. The rejection is being maintained, for the specifics of the rejection see the previous office action, mailed date 6/28/04.

Response to Amendment

11. *Arguments with respect to the appropriateness of date of Wood 232 are rendered moot.*

Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
